Saxophone solo over main riff for four bars. Two saxophone lines in harmony, I've tabbed them as double-stops for the guitar. The last notes are on the '1' of the next bar.

Music in the ice-box,  
Laughter in the dark,  
Echoes in the silence,  
Waiting for the spark,  
Hold me while I'm naked,  
Catch me if you can,  
Suicide statements are the measure of the man ...  
Do you dream in colour?  
Do you dream in colour?  
Do you dream in colour?  
Do you dream at all?

Turning on the TV,  
Helpless to resist,  
Video junkie  
Looking for a fix,  
Sick obsession,  
Terminal twist,  
Caught in possession of an ever-open wrist ...

Do you dream in colour?  
Do you dream in colour?  
Do you dream in colour?  
Do you dream at all?

Death by violence,  
Destiny decrees  
A permanent reliance  
On the science of extremes,  
Absent at the wedding,  
Present at the birth,  
Turning off the lights now all across the earth ...

Do you dream in colour?  
Do you dream in colour?  
Do you dream in colour?  
Do you dream at all?
